Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

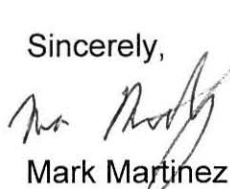

Ms. Dortch,

I am the proud owner of a company that focuses on diversity materials for many small and large institutions. We celebrate the heritage and accomplishments of communities throughout our great city and nation. Our company also depends heavily on technology to market and sell our products to customers throughout the world. We depend heavily on technology to be effective and reliable to increase sales. This is why I write in support of LightSquared's efforts to launch a nationwide 4G-LTE broadband wireless network in my neighborhood in Los Angeles County. This new technology will allow Diversity Graphics Inc. to grow and hire more staff. In my humble opinion, this initiative is not about technology, it is amount jobs.

Ms. Dortc, I fully support the effort and extend my hopeful thoughts to you that this project be approved ASAP. America needs a stimulus. This project will offer it.

Please call if I can offer additional clarifying points.

Sincerely,

Mark Martinez
Owner
Diversity Graphics Inc.
